

HIGH PERFORMANCE AIRBLOWER

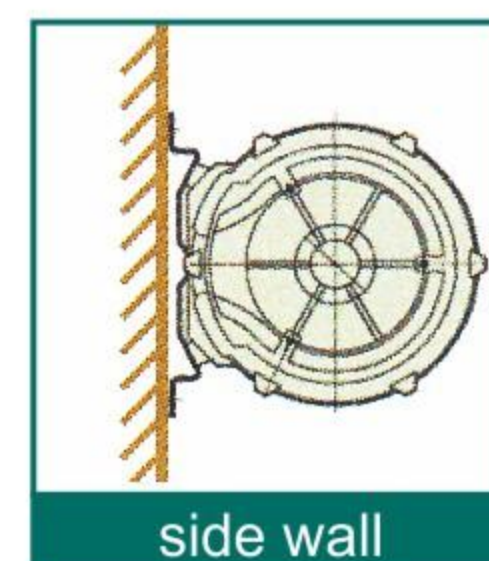

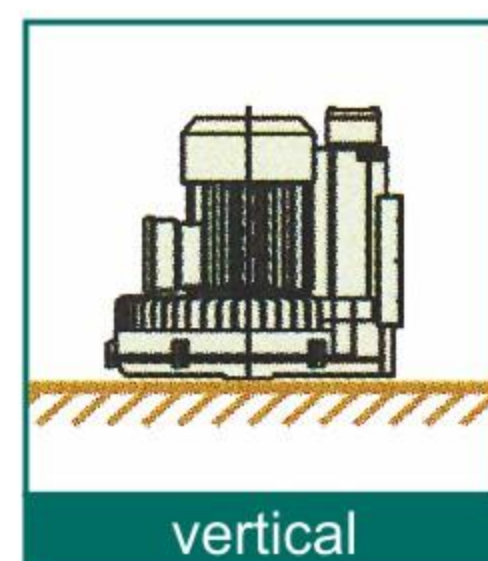

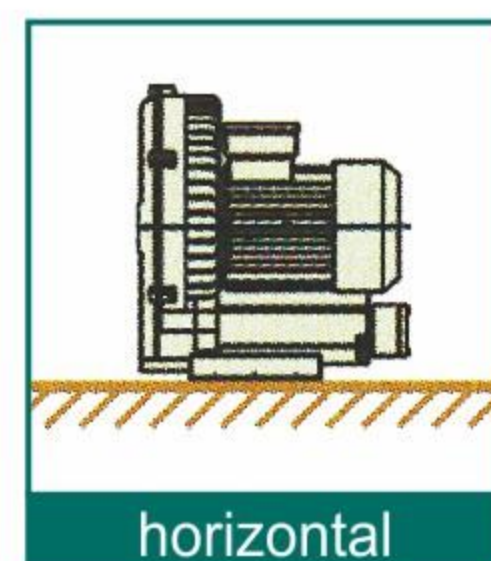

AAP

- Shaft seal with fluorine plastic or imported skeleton maintenance-free shaft seal isolation motor.
- The electrical motor is squirrel cage motor with IP54 protection, Level B insulation.
- Vibration-absorbing baseboard, can reduce vibration.
- The motor adopts die-cast aluminum housing, heat dissipation fast, light weight.

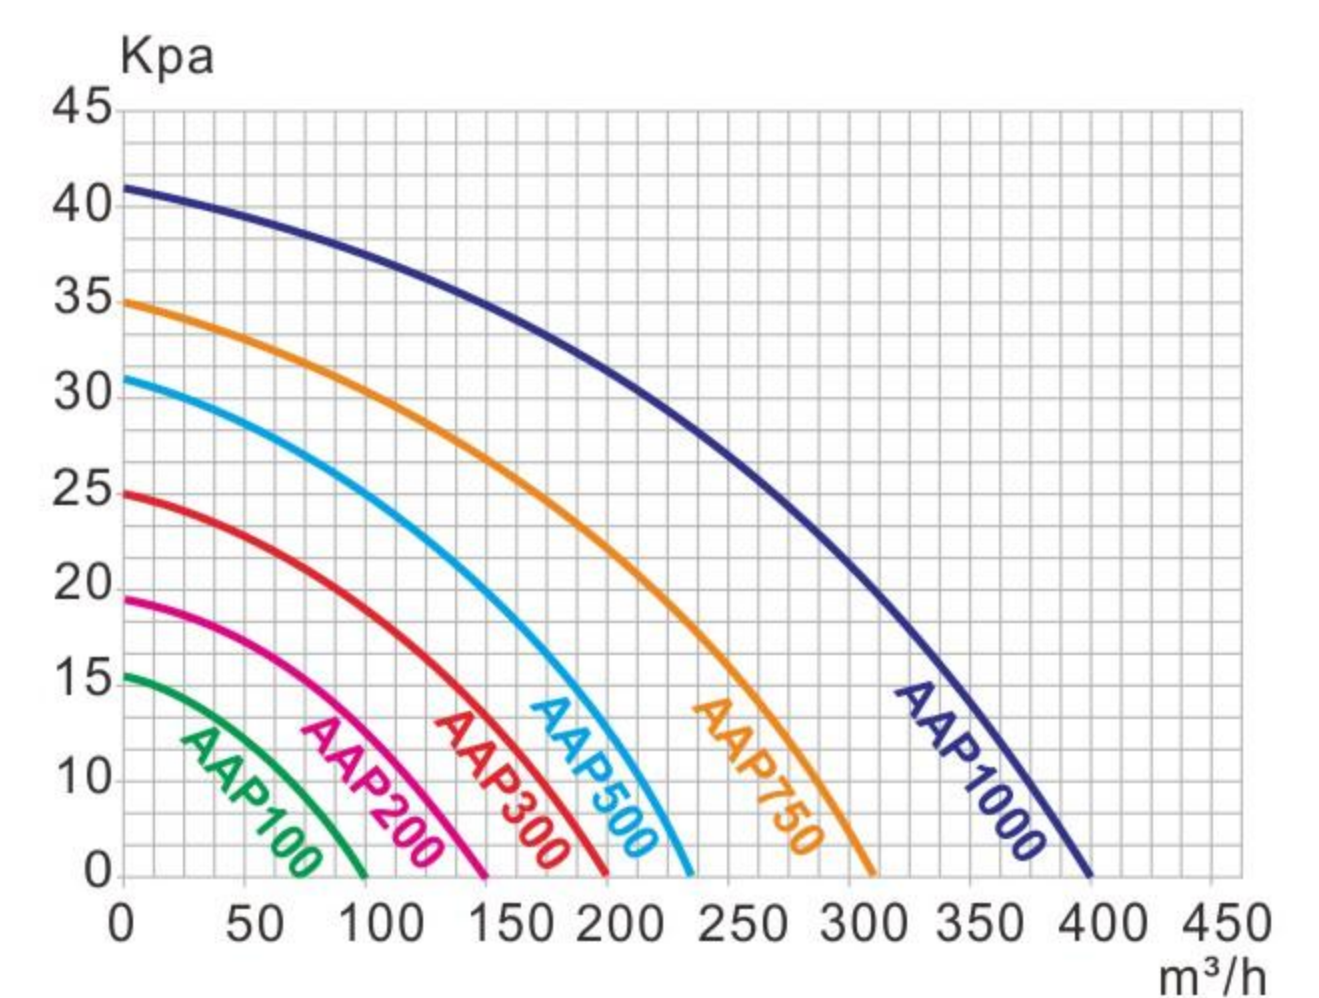

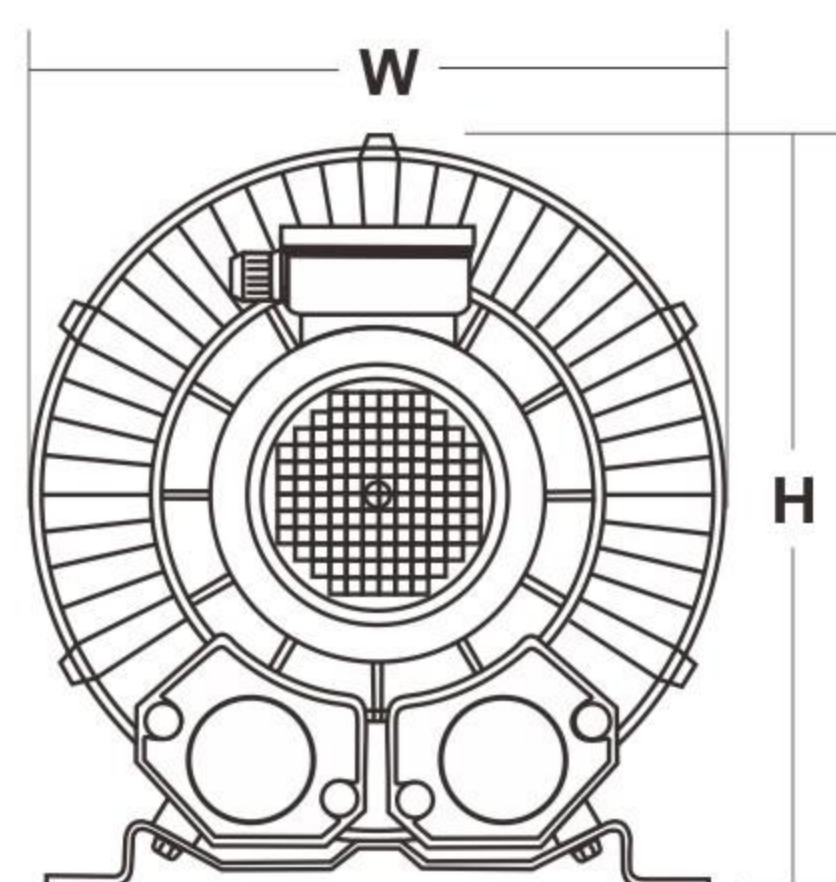

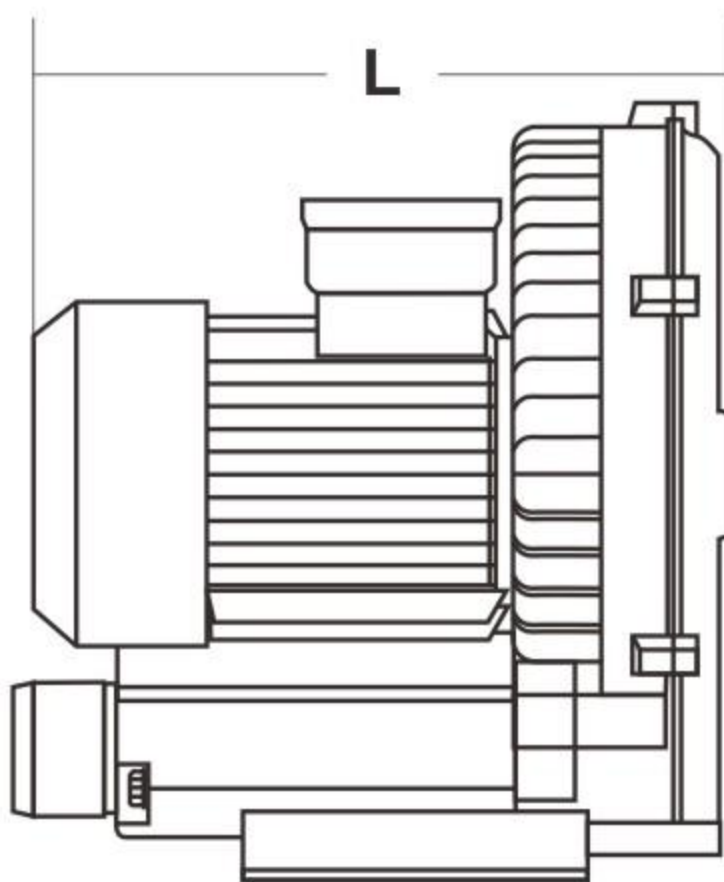

- The impeller is side-stream high efficient aluminum metal impeller.
- The surface of the cavity of the air pump was coated with anticorrosive paint, extend its life cycle.
- This product is suitable for various swimming pool and SPA pool.
