

FREE CHLORINE MULTIFUNCTION CONTROL SYSTEM

AUT-800

Using high quality electronic components and excellent housing material, is a pool water quality intelligent monitoring system, designed to control residential and commercial swimming pool and SPA pool water free chlorine content, PH value and temperature.

Accessories:

16 Words Double Line LCD Display

Specification:

PH measurement-- range: 0~14; Resolution: ± 0.01	Output --0 / 4 ~ 20mA, 4 dosing pump relay output (10A, 220V)
CL measurement -- range: 0-200PPM; Resolution: ±0.01; Accuracy: 1%	Power --15W
Temperature measurement-- PT100; Range: 0-100°C; Resolution: 1°C; Accuracy: 1%	Dimensions --300 (H) × 290 (W) × 143 (D)mm
Power input --100 ~ 240V, 50 ~ 60Hz	Installation -- wall-mounting
Signal Input -- external trigger (flow meter) input (15 ~ 30Vac / Vdc)	Working environment -- Temperature: 0 ~ 40°C; Relative Humidity: 0 ~ 95% (non-condensing)
	Weight --2.45kg
	Housing material --ABS
	Protection degree --IP65
